

## SMSTS 5 Day Course

The SMSTS course covers all relevant legislation affecting safe working in the building, construction and civil engineering industries. It highlights the need for risk assessment in the workplace, the implementation of the necessary control measures and adequate communication to sustain a health and safety culture within the workforce.

What will you learn?

- Implement all health, safety, welfare and environmental legislation affecting your daily work
- Implement new guidance and industry best practice
- State your duties and responsibilities with regards to health, safety, welfare and the environment

Certification for this course is valid for 5 years. To remain certified in this area, you will need to take another SMSTS refresher course before the expiry date. If you chose not to renew before the expiry of your original certificate, you will have to re-take the full 5 day course

For those who are considering, or already have, responsibilities for planning, organising, monitoring, controlling and administering groups of staff e.g. as a site manager.

Certification for this course is valid for 5 years. To remain certified in this area, you will need to take the SMSTS Refresher course before the expiry date. If you chose not to renew before the expiry of your original certificate, you will have to re-take the full 5 day course
