

SVQ Level 3 – Occupational Health and Safety

The SVQ Level 3 Occupational Health and Safety award consists of 4 mandatory units and 2 optional units.

- The necessary core competences for a practitioner at SVQ L3
- A reflection of the particular job functions
- A balance between technical and personal competences

H8W5 04	Manage the Environmental and Social Impacts of Your Work	Optional	

A unit specific evidence signpost list will be created.

This will provide you with a list of potential evidence which you can begin to gather and present to your assessor at your first assessment visit.

All candidates must produce evidence from the workplace to meet the requirements of these construction management standards. However some candidates may need to widen their current job roles to achieve this evidence.

This is consistent with the notion that SQA Awards should be diagnostic, developmental and qualifying.
