

Construction Contracting Operations Management: General NVQ Level 6 - Unit Selection

The Level 6 Construction Contracting Operations Management: General NVQ award consists of 8 units. These include all four mandatory units, plus four optional units. The balance between the core and optional units is intended to help candidates to design awards that include:

- The necessary core competences for a practitioner at NVQ Level 6
- A reflection of the particular job functions
- A balance between technical and personal competences

Please ensure that you select one optional unit by inserting a ✓ in the adjacent box.

A unit specific evidence signpost list will be created.

This will provide you with a list of potential evidence which you can begin to gather and present to your assessor at your first assessment visit.

All candidates must produce evidence from the workplace to meet the requirements of these construction management standards. However some candidates may need to widen their current job roles to achieve this evidence.

This is consistent with the notion that NVQ Awards should be diagnostic, developmental and qualifying.
