J67X 04	Develop and Implement the Health and Safety Policy	Optional	
J67Y 04	Develop and Implement Health and Safety Emergency Response Systems and Procedures	Optional	

A unit specific evidence signpost list will be created.

This will provide you with a list of potential evidence which you can begin to gather and present to your assessor at your first assessment visit.

All candidates must produce evidence from the workplace to meet the requirements of these construction management standards. However some candidates may need to widen their current job roles to achieve this evidence.

This is consistent with the notion that SQA Awards should be diagnostic, developmental and qualifying.
