

Controlling Lifting Operations - Supervising SVQ Level 3 - Unit Selection

The Level 3 Controlling Lifting Operations (Supervising) SVQ award consists of 8 mandatory units.

The balance between the core and optional units is intended to help candidates to design awards that include:

- The necessary core competences for a practitioner at SVQ Level 3
- A reflection of the particular job functions
- A balance between technical and personal competences

Unit	Title	Status	Insert ✓ as required
F7AA	Develop and maintain good working relationships	Mandatory	✓
FN32	Supervise lifting activities	Mandatory	✓
FN2R	Maintain systems for health, safety, welfare and environmental protection	Mandatory	✓
FN2L	Co-ordinate work control	Mandatory	✓
FN2F	Allocate and monitor the use of plant, equipment or machinery	Mandatory	✓
FN2T	Maintain the dimensional accuracy of the work	Mandatory	✓
FN2K	Co-ordinate preparation for site operations	Mandatory	✓
FN2G	Allocate work and check on people's performance	Mandatory	✓

A unit specific evidence signpost list will be created.

This will provide you with a list of potential evidence which you can begin to gather and present to your assessor at your first assessment visit.

All candidates must produce evidence from the workplace to meet the requirements of these construction management standards. However some candidates may need to widen their current job roles to achieve this evidence.

This is consistent with the notion that SVQ Awards should be diagnostic, developmental and qualifying.
