

SSSTS REFRESHER 1 Day Course

The SSSTS Refresher course provides supervisors with an understanding of why they are carrying out their identified duties and what is expected of them and to ensure that they contribute to the safety of the workplace.

What will you learn?

- Health and safety law and how it applies to supervisors
- Your supervisory responsibilities in controlling site safety
- Risk assessments and the need for method statements
- Effective site inductions, toolbox talks and method statement briefings
- Monitoring site activities effectively
- Timely intervention when bad practice is identified

For Site supervisors or those with supervisory responsibilities who currently hold an existing 2 day SSSTS within the scope of renewal requirements

This course is an ideal foundation for obtaining a basic understanding of health and safety duties and responsibilities for junior management and upon successful completion of this course, a natural progression would be the Site Management Safety Training Scheme (SMSTS) course.
