

EMERGENCY FIRST AID AT WORK 1 Day Course

It is a requirement of the Health & Safety law that employers should provide a safe and healthy environment for their employees. Your risk assessment for First Aid needs may identify the need for emergency first aiders. This could be as an addition to your current first aiders or where the risk of business is low. This is the minimum level of First Aid training for the workplace, appropriate for low-risk environments or for those acting in the absence of a fully qualified First Aider.

What will you learn?

- Responsibilities and reporting
- Resuscitation Assessment of the situation
- Choking
- Basic hygiene in First Aid
- Bleeding control
- Shock
- Dealing with an unresponsive casualty
- Minor injuries Seizures
- Catastrophic Bleeding
- AED

Candidates will receive their SCQF LEVEL 6 accredited Emergency first aid at work certificate which is valid for 3 years

All courses can be carried out at your premises to avoid any disruption to your business. All that's required is a small, vacant office or room
